

CALL FOR ABSTRACTS

The 23rd Symposium on the Coastal Environment

The 23rd Symposium on the Coastal Environment is sponsored by the American Meteorological Society (AMS) and organized by the AMS Committee on Coastal Environment. The symposium will be held as part of the 105th AMS Annual Meeting in New Orleans, Louisiana, from 12 to 16 January 2025.

Submit abstracts for oral or poster presentations on the following (or related) topics by 15 August 2024:

- Coastal Meteorological Processes
- Predictions in the coastal environment: From weather to seasonal timescales and beyond
- Impacts of Climate Change on the Coastal Environment
- Coastal Modeling and Evaluation for the Unified Forecast System (UFS) and Other Applications
- Coastal coupled modeling for compound flooding
- Coastal urban environment analysis and modeling
- Applications of Artificial Intelligence to the Coastal Environment
- Connecting How Weather and Climate Influence Hydrodynamic Processes Within the Coastal Marine System
- Forecast-Based Action: Ecological and Coastal Forecasting to Sustain Ecosystems and Coastal Communities
- The Ocean Enterprise and Aspects of Weather, Water, and Climate in Coastal Zones
